9.1 LADY ALEXANDRA DUFF (Kelway).	Pink. The originator of this flower describes it thusly: "Lovely French white; that is to say, not a snow-white, although when fully opened it is quite white; in the young stage tinted with a very fresh, delicate pale shade of what is commonly called 'blush,' or palest pink. The central flower (the first to open), is a double flower of rather flattened, circular form, and the central petals have a very small touch of carmine. It is a very nicely formed flower and scented, and the plants are exceedingly free-flowering and showy".....	3.00	25.00		
7.8 LAFAYETTE (Dessert).	Pink. Rose type, midseason. The flowers are large, last well, and the petals are beautifully fringed; the color—a lovely shade of salmon-pink with touches of heliotrope and a delicate tinting of cerise in the reflex, giving it a striking and beautiful effect. It is one of Dessert's late productions. Very attractive; very desirable.....	.75	6.00	50.00	
9.2 LA FEE (Lemoine).	Pink. Crown type, early. Very large, globular flower, very compact and double. Petals very long, guards mauve-rose, collar creamy-white. Very strong, tall grower, free bloomer. Very fragrant.....	10.00			
9.0 LA FRANCE (Lemoine).	Pink. Rose type. Late midseason. It bears enormously large, full, rather flat, perfectly double flowers that are deliciously fragrant. Color, La France pink, as the flower ages finishing soft, apple-blossom pink, slightly reflecting mauve. The outer guard petals have a splash of crimson through the center, deepening at the base. The flower appears to light up and glow simply wonderfully. This is regarded by our American experts as one of Lemoine's very best productions.....	4.00			
8.6 LA LORRAINE (Lemoine).	Rose type, midseason, bearing enormous globular flowers. Color creamy-white, overlaid with the daintiest soft pink; sometimes it shows just a touch of salmon-pink. The petals are large. Flowers last well on both plant and as cut flower. Delicate fragrance.	4.00
